DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Claims 1-15 and 25-26 in Paper No. 7 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 25-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Takamizawa et al. (US 2001/0021954 A1, hereafter "'954")

The applied reference has a common assignee with the instant application.

Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

With respect to Claim 25, '954 teaches the auto status back in the Abstract, lines 4-6, the change data between an earlier status and current status on page 4 @[0067] and the change data transmission in figures 3-4. With respect to Claim 26, '954 teaches the

first memory 32 on page 4 @[0053], the second memory 38 on page 4 @[0056], the calculation unit in figure 4 @ S113-114 and the transmission device in his claim 1 @ (c).

Allowable Subject Matter

4. Claims 1-15 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter: The total combination of Claim 1 is not taught and/or rendered obvious when considering the control unit function.
